TEACHING PHILOSOPHY & APPROACH

The Links at Brunello Teaching Professionals will help golfers reach their goals, emphasize the individual's unique set of skills and use each player's own strengths and weaknesses to plan appropriate instruction, practice and play. Instructors will analyze golfer's swings and pay close attention to ball flight - teaching to the individual.

We will offer a wide variety of programs to satisfy any golfer, no matter what their playing experience. Primary to working with our younger players, is the concept of 'Coaching' rather than strictly 'Instructing'. Such a framework will address physical, mental, emotional and technical needs of the child as they pass through stages of development, encouraging fun and rewarding experiences for many years to come.

Long Term Player Development (LTPD)

This systemic approach has been developed and adopted by Golf Canada in partnership with the PGA of Canada to maximize a student's potential and involvement in our sport.

Recent research and knowledge from coaches around the world have been used in the LTPD model. This model, coupled with the enthusiasm and fun that's paramount in Brunello's approach to all instruction, makes for an enriched environment, inspiring a love and the respect of the game for years to come.

Player Development Events

As some players gain more confidence, they begin to demonstrate the ability and enthusiasm for not just playing the game, but for the friendly, healthy competition that often accompanies ongoing successes and progress. We will guide and support that energy with some fun filled events throughout the season, including, (as we did in 2016), participation in the PGA Atlantic Pro/Junior, and the potential for interclub events to cultivate and encourage building relationships amidst fun filled days of organized play.

4FUN JUNIOR PROGRAMMING & DEVELOPMENT COURSE

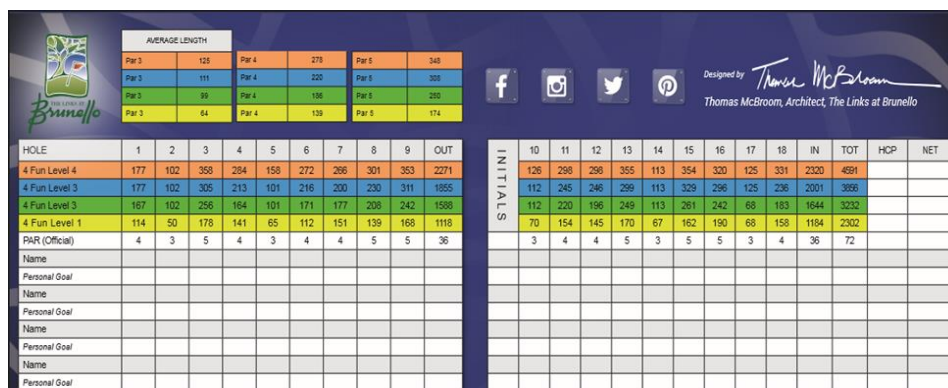

The Links at Brunello Junior academy has gone through a complete overhaul with their programs. Incorporating the Golf Canada [Long Term Player Development Guide](#) (LTPD), with our existing 4FUN tees, we are happy to introduce a fully integrated, graduation system into our programs. Young players will be assessed, and placed into one of the following 4FUN stages. Upon which, they will be taught specific lesson plans, based on their skill level, designed with the LTPD guidelines in mind.

- **Stage 1: Yellow 4FUN** – LTPD Guidelines: Active Start (0-6 years) – to learn fundamental movements and link them together in play
- **Stage 2: Green 4FUN** – LTPD Guidelines: Fundamentals (6-9 years) – to learn fundamental movement skills and build overall motor skills.
- **Stage 3: Blue 4FUN** – LTPD Guidelines: Learn to Golf (8-11 years) – continue to develop fundamental movement skills and fundamental golf movement skills
- **Stage 4: Orange 4FUN** – LTPD Guidelines: Continue to reinforce basic and golf fundamentals movement skills, and build those skills into introductory competitive experiences.

The **4Fun** Player Development Course will let players develop and graduate through different levels at their own pace.

- Be more playable for the entire family
- Foster opportunities for families to bond, making lasting memories
- Allow players of all ages and golf abilities to improve all facets of their respective games
- Use a system of tees in front of existing tees, identified by color coded plates, 90 degrees from cart paths

As a result, this will make the game more fun in an enjoyable, pressure free environment!
