

Trail Ratings

BEGINNER

Generally smooth trails with rolling terrain and varied surfaces such as dirt, exposed bedrock and gravel. Low roots, rocks and other avoidable obstacles may be present.

Requires basic bike handling skills and fitness. Optional Intermediate features and lines may be present.

INTERMEDIATE

Challenging riding that may contain steeper slopes, and larger obstacles, possibly on narrow trails with constructed features. These may include jumps, ramps, large roots or rocks, rollable drop-off's and other technical elements.

Must be an experienced rider. Optional Advanced features and lines may be present.

ADVANCED

More challenging riding, potentially with very steep slopes and rough terrain. Mandatory obstacles and features such as non-rollable drop off's, jumps, rock faces, ledges, and unpredictable terrain may be present.

Optional Expert features and lines may be present.

EXPERT (FUTURE BUILDS)

Very difficult riding, only for very experienced and highly skilled riders. Terrain width, steepness and surfacing may be wildly variable and unpredictable. Large mandatory drop-off's, chutes, rock faces, and gap jumps may be present.

Use extreme caution, inspect features first and walk sections if needed.

TRAIL NAME	TYPE	ONE WAY	TWO WAY	TOTAL DISTANCE
