

# *Biking at the Links at Brunello*

## COME EXPLORE HALIFAX'S NEWEST MOUNTAIN BIKE LOCATION

Our trails offer moderate downhill biking with gradual climbs in a forested setting. The Links at Brunello is an ideal close to the city's core to ride and appreciate nature.

Due to elevation gain and variety of terrain our bike trails are rated as Beginner/ Intermediate and Advanced. Currently the 1st phase is at completion and has many stunts and features with approximately 5km's of trails. The 2nd phase will include up to 10 to 15 km of built trails. The Links at Brunello will be charging fees for use which will help cover maintenance and future trail work of the mountain bike park.

The area is perfect for: Learn to ride lesson, Group Sessions, Private lessons, Private party rentals and Demo days

We are located at 120 Brunello Blvd in Timberlea. Additional trails can be accessed via the BLT Trailhead located at the access trail on Trinity Way which is located by the Trinity Church in Timberlea,

# Trail Ratings

## BEGINNER

Generally smooth trails with rolling terrain and varied surfaces such as dirt, exposed bedrock and gravel. Low roots, rocks and other avoidable obstacles may be present.

Requires basic bike handling skills and fitness. Optional Intermediate features and lines may be present.

## INTERMEDIATE

Challenging riding that may contain steeper slopes, and larger obstacles, possibly on narrow trails with constructed features. These may include jumps, ramps, large roots or rocks, rollable drop-off's and other technical elements.

Must be an experienced rider. Optional Advanced features and lines may be present.

## ADVANCED

More challenging riding, potentially with very steep slopes and rough terrain. Mandatory obstacles and features such as non-rollable drop off's, jumps, rock faces, ledges, and unpredictable terrain may be present.

Optional Expert features and lines may be present.

## EXPERT (FUTURE BUILDS)

Very difficult riding, only for very experienced and highly skilled riders. Terrain width, steepness and surfacing may be wildly variable and unpredictable. Large mandatory drop-off's, chutes, rock faces, and gap jumps may be present.

Use extreme caution, inspect features first and walk sections if needed.
